R.3.1 The project key findings are turned into professions along the value chain with curricula developed.
 Indicator: 3 main professions identified in relation to the project innovative infrastructures.
 Indicator: 03 training curricula on the identified professions developed.

R.3.2 Successful innovative professions supported by the project are disseminated and adopted by schools and training centres.
 Indicator: At least 02 tools used for the dissemination of innovative professions.
 Indicator: 01 document describing the process of adoption of innovative professions developed.

5- Direct Beneficiaries of the Project
The Cameroon Golden Cocoa project works with the following cooperatives:
Centre region: SOCOPROCAON, CACAO+Ayos, MBANGA SUD, COOPROBI COOP-CA, SOCOPACE, PROCABA, SOCADECAM, SOCODEC.
South-West region: BAFIAFCOOP and KONAFCOOP.

7- Infrastructures to build
In order to facilitate the production of high quality cocoa beans by cooperatives, the project will build the following infrastructures:
- 15 fermentation units;
- 15 improved solar dryers;
- 01 local transformation unit.

8- Implementation approaches
- Multi-Actor;
- The local capacity Building;
- Market led Value chain development;
- Inclusive Business;
- Sustainable Nutrition for all (SN4A) and Balancing Benefits.

9- Duration of the project
The project is for 2 years (from December 1st, 2018 to November 30th, 2020).

10- Funding
The project is funded by the German Federal Ministry for Economic Cooperation and Development (BMZ);
- Implementation: GIZ;
- Partnership: SNV Cameroon;
- Cooperation: Ministry of Agriculture and Rural Development (MINADER).

11- Synergies
The Cameroonian government is currently implementing several projects in the cocoa sector. Synergies will be sought with these projects in order to achieve better results. In addition, with the support of the Ministry of Employment and Vocational Training (MINEFOP) and the Ministry of Agriculture and Rural Development (MINADER), the project aims to contribute to the professionalization of the cocoa value chain (post-harvest) in Cameroon.

1- Introduction
The Cameroon Golden Cocoa project (CGCP) is implemented under the Green Innovation Centres for the Agriculture and Food Sector Project framework funded by the German Federal Ministry for Economic Cooperation and Development (BMZ) and implemented by GIZ. The project is executed by SNV Cameroon in the South-West and Centre regions. The Cameroon Golden Cocoa Project has a strong Public Private Partnership bias with innovations development.

2- General Objective
The general objective of CGCP is to increase cooperatives and farmers’ incomes and job creation through implementation of standardized post-harvest practices resulting in high quality cocoa.

SPECIFIC OBJECTIVES
- Increase by 10% the production of high cocoa quality through implementation of standardized post-harvest practices;
- Diversify cooperatives income sources through cocoa bean transformation and marketing of transformed products and job creation;
- Develop a cocoa value chain development training curriculum for professional education, Public and Private actors to be used at schools according to competences.

3- Innovations of the Project
The project will introduce 04 innovations as follows:
- Improved cocoa fermentation boxes;
- Improved hybrid solar dryers;
- Establishment of local cocoa transformation unit;
- Rehabilitation of warehouses.

4- Components and expected results
This project has three components and the following results are expected:

COMPONENT 1
Production of high quality cocoa beans by cooperatives.

- R.1.1. 06 cooperatives legalized and economically viable.
  Indicator: At least 3 standardized services and operations delivered by cooperatives to their members.
- R1.2. Improved cooperatives knowledge on Cocoa beans fermentation, solar drying and warehousing: “Golden Cocoa Practices”.
  Indicator: 10% of the cocoa produced by cooperatives is a high quality cocoa “Golden Cocoa”.
- R1.3. Strengthened cooperative links to markets.
  Indicator: At least 4 marketing contracts concluded by cooperatives at national and international markets.
  Indicator: The price of Golden Cocoa is 10% higher than the market price.

COMPONENT 2
Diversification of sources of income, transformation and job creation.

- R.2.1. Cocoa butter, cocoa powder and other products transformed by cooperatives and partners.
  Indicator: 2% of golden cocoa transformed by cooperatives and partners.
- R.2.2 Cooperatives strengthen their selling potential through effective marketing of transformed products at regional and national markets.
  Indicator: At least 3 transformed products marketed by cooperatives and partners.
- R.2.3. Increased involvement of women at the post-harvest stages of the cocoa value chain.
  Indicator: At least 2 alternative income generation activities developed by women.
  Indicator: 4 business models developed by women and oriented to relevant financial partners.
- R.2.4. Additional jobs created by cooperatives and private sector actors.
  Indicator: 200 jobs created by 10 cooperatives around the infrastructures set up by the project and partner companies of the cooperatives.
